FINANCE & OPERATIONS EXPERIENCE

Professional Development & Portfolio Projects 2022 – Present

Independent — Concord, NC / Sacramento, CA

- Built three independent finance portfolio projects using real business transactions and public-company data, covering FP&A, financial forecasting, variance analysis, ASC 606 revenue recognition, and Power BI dashboard reporting.
- Applied Excel formula modeling and Power BI/DAX to build multi-tab financial models, including budget-vs-actual tracking and break-even analysis.
- Pursuing the CMA certification; Part 1 exam scheduled for September 2026.
- Relocated to the United States in 2022 and supported the transition through part-time teaching and fitness instruction while completing English-language study and preparing to re-enter the finance field.

Owner & Financial Manager 09/2019 – 07/2022

Claire Children's Dance Studio | Bataysk, Russia

- Founded and managed full P&L across four revenue streams — choreography, fitness, karate, and gymnastics — growing the studio to \$275K in cumulative revenue at a 30.9% net operating margin.
- Built and managed a 2021 operating budget from run-rate assumptions; delivered results 2.7% above budgeted revenue and \$2,418 above budgeted NOI despite opening a second hall.
- Tracked customer subscriptions, renewals, and outstanding balances; reconciled cash receipts, payroll, and vendor invoices to maintain accurate, audit-ready financial records.

Financial Analyst & Administrative Support 08/2017 – 09/2019

Mercedes-Benz Center Sochi | Sochi, Russia

- Controlled department budgets and tracked actuals vs. plan, preparing month-end cost, profitability, and variance reports for management.
- Monitored vendor costs and procurement activity in SAP and Excel to ensure financial accuracy before each period close.
- Supported financial reconciliation during high-complexity Formula 1 events, coordinating across operations, logistics, and external vendors.

Financial Analyst & Claims Data Analyst 05/2015 – 09/2017

AlfaStrakhovanie LLC, Insurance Company | Sochi, Russia

- Extracted, cleaned, structured, and validated large SAP and Excel datasets to support reliable, audit-ready financial reporting.
- Tracked and analyzed case financials, identified cost variances and data inconsistencies, and prepared clear management reports.
- Reconciled transactions and verified invoice/payment accuracy, escalating discrepancies when documentation did not support approval.
